Oral antidiabetic drugs - all results metaEvidence.org

## Oral antidiabetic drugs - all results

Treatment Numb	es results	Inconclusive results	Uncertain results	Safety results	
----------------	------------	----------------------	-------------------	----------------	--

Uncertain results are statistically significant results but obtain in trial with high risk of bias.

## **Notes**

Demonstrated results are significant results obtained on the primary endpoint of a trial at low risk of bias or with some concerns.
