Interleukin-2 - all results metaEvidence.org

Interleukin-2 - all results

Treatment Number of studies	Demonstrated or suggested results	Inconclusive results	Uncertain results	Safety results	
-----------------------------	-----------------------------------	----------------------	-------------------	----------------	--

Uncertain results are statistically significant results but obtain in trial with high risk of bias.

Demonstrated results are significant results obtained on the primary endpoint of a trial at low risk of bias or with some concerns.
